 Healthy, Free, the

 The long brown  
 path before me  
 Leading wherever

Henceforth i ask

 i MYSELF AM  
 good Fortune,  
 Henceforth wither

 Done with indoor

Victory was the word echoed more times this year than ever before in Bedford's football history. The long weeks of practice during summer proved profitable by placing Bedford number two in the Dual County League standings. Throughout the season the Bedford defense unit gave up only 44 points, while the offensive unit scored 132 points. The highpoint of the season was the Wayland Game where an estimated 6000 fans attended. Five members, Steve Wood, Chuck DuPriest, Gary Sharpless, Bill Elias, and Peter Bolduc were chosen Dual County League All-Stars.

These thirteen 1971-1972 cheerleaders support football, soccer, ice hockey, basketball and entered statewide competitions. Cheerleading, unlike a sport, does not end with a season but continues throughout the year. After tryouts, they learn more formations, cheers, stunts, mounts, improving techniques and new ideas. They cheer at pep rallies to encourage spectators but their main function is to support and represent Bedford teams with all the spirit and enthusiasm they have.

## Legislative Committee

LEGISLATIVE COMMITTEE: ROW 1—Mrs. Hottie Goodman, Mrs. Carol Frenier, Karin Chisefsky, Greg Winter, Mr. Brendan Desilets, ROW 2—Mr. Bernard Gollis, C. J. Melanson, Chuck DePriest, Koy Forte, William Rhine, Mr. Walter Powers, Nancy Bergin, Robin Winslow.

In the spring of 1971, Bedford High introduced a new concept of student government. At this Constitution Convention there evolved a new constitution that included the formation of two governing bodies: the Student-Faculty Court and The Legislative Committee. The basic concept was equal representation between students and teachers, a system that has not before been attempted.

The Legislative Committee consisted of nine students and nine faculty elected by their peers. Those elected were: Students—Karin Chisefsky, Bill Hoa, Robin Winslow, Chuck DePriest, William Rhine, Robyn Del Real, Greg Winter, Nancy Bergin, Greg Smith, Kay Forte and Jim Lewis (alternate); and faculty: Mr. Spinosa, Mrs. Goodman, Mrs. Frenier, Mr. McCarthy, Mr. Phinney, Mr. Powers, Mr. Webber, Mr. Pavlasky, Mr. Ambrase, and Mr. Melanson (alternate). This Year's committee had the responsibility of forming school policies related to open campus and setting up the procedures for use at regu-

lar meetings. The sub-committees attended Northeast Regional Council meetings and will try to elect four of its members to the State Board of Education. Successfully putting the Constitution on its feet, the committee served a needed purpose.

The Student-Faculty Court also had the responsibility of establishing a firm ground that future courts could rely on. Its powers consisted of handling grievances filed by students or teachers and interpreting the constitution while deciding the outcome of a case. These cases may concern students, teachers, or school policies. Organizing the procedures and making the judgements were four students and four faculty elected by the school at large. These students were Peter Baldur, Kehne Moeller, Suzanne Moore, and Leslie Riembach. The faculty members were Mr. Lewis, Maderatar; Mrs. Pellegrini, Secretary; Mr. Donovan, and Mr. Sabourin. This court allowed increasing participation in determining the outcome of issues that affect their school lives.

All parts away for the progress of a soul.

All religion, all solid things, arts, governments—all that was or is apparent upon this globe or any globe, falls into niches and corners before the procession of souls along the grand roads of the universe.

To know the universe itself as a road, as many roads, as roads for traveling souls, forever alive, forever forward.

In remembrance of Maureen Price  
1954-1971

Pollution.

You can't fight it until you find it.

Sometimes it's as easy as analyzing a beaker of water. Other times a complete ecological study is required.

Right now, on rivers and lakes, along coastlines, Raytheon scientists are using a variety of techniques to determine precisely where pollution exists, or will exist.

Once it's found, automatic monitoring systems and equipment from Raytheon provide continual analysis of water quality.

Helping people get the drop on water pollution is just one of the ways Raytheon technology is working for better living today.
